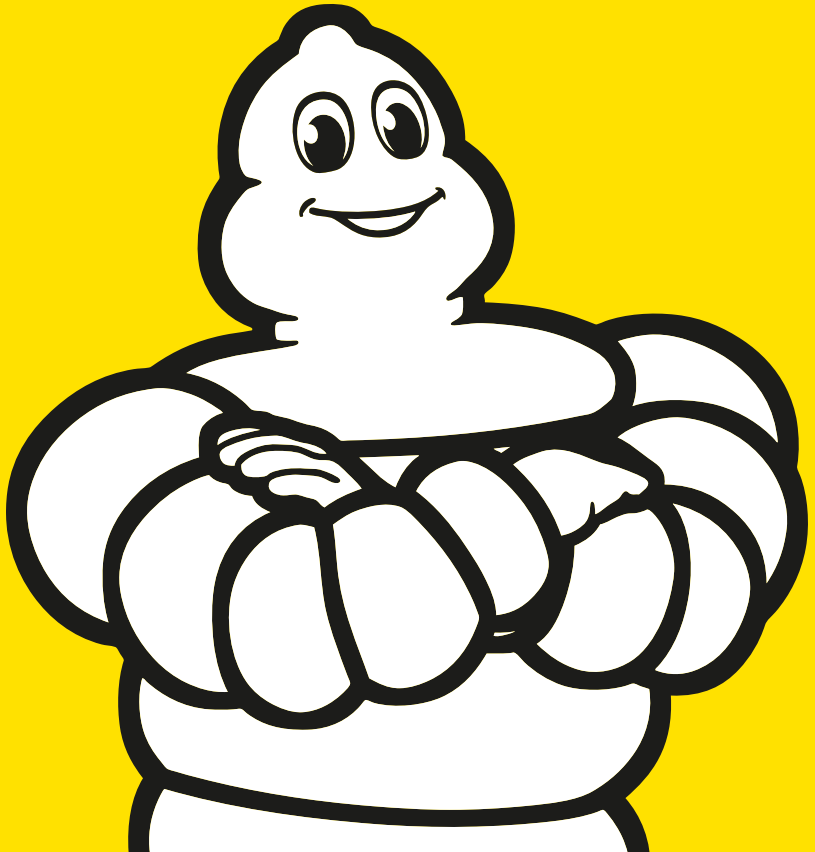
WHAT IS A MICHELIN X® TWEEL™ AIRLESS RADIAL TIRE?

NO MAINTENANCE
The MICHELIN X® TWEEL™ airless radial tire is one single unit, replacing the current tire and wheel assembly. There is no need for complex mounting equipment and once they are bolted on, there is no air pressure to maintain.

NO COMPROMISE
The unique energy transfer within the Polyresin spokes helps reduce the "bounce" associated with pneumatic tires, while providing outstanding handling characteristics.

NO DOWNTIME (NO FLATS!)
The TWEEL™ airless radial tire is designed to perform like a pneumatic tire, but without the inconvenience and downtime associated with flat tires.



MICHELIN X® TWEEL™ TURF (FOR ZERO-TURN RADIUS MOWERS)

REASONS TO BUY

- ✔ Consistent hub height helps ensure the mower deck produces an even cut.
- ✔ Excellent lateral stability on hillsides and sloped surfaces, and outstanding operator comfort, even when navigating over curbs and other bumps.
- ✔ High performance compounds and an efficient contact patch designed to provide a long wear life that is 2-3 times that of a pneumatic tire at equal tread depth.
